10 4d nails, 1.5"
2 Decking screws, 1.5"
*ideally untreated wood

Key:

FS – fixed side
D – door
FR – front
B – back
R – roof
FL – floor

CUT LIST

PRE-DRILLING

With 1/8" drill bit, make holes:
a, f: 1" from top, 3/8" from side
b, i: 1" from bottom, 3/8" from side
e, h: 3/4" from bottom, 3/8" from side
d, g: 2" from bottom, centered
c: 2" from top, centered; return and cut 1 1/4" hole with spade bit

Step 1:
Assemble the box by nailing together at your pre-drilled holes (except e and h).

Step 2: Hammer a nail into front of D to use as a handle. Add D to box and screw into place at e and h. Drill through FR into D to create a latch; insert a nail to hold door in place.
